Maybe even better than free.

There are no restrictions on the number of times a file can be downloaded. You decide who you want to share your files with. Just upload the file you want to share with your friends and we send you a download link to your file. Any file in any format can be uploaded and downloaded for free. We have no file size limit. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Keep your files private, or send your download links only to friends or family. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Alternatively you can choose to share your download links on blogs, forums and social networking sites. You can upload any type of file (movies, music,documents, images, zip files and more). If only we could, we surely would! On the other hand, using file can actually save you money. You don't need anyspecial software installed to be able to download your files. Using file, you can circumvent those limits without paying to upgrade your team chat service. Whypay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. Files can be downloaded from any computer from our high speed servers. filehosting provides an easy possibility for you to send large files toyour friends. So try our frie and simple filehosting service now. The cost of that data transfer is covered by your internet service or the data plan on your phone.Simply upload your file and share the link. You can give this download link to your friends by mail or instant messenger. It is also allowed to link to thedownload page from websites and communities. Our service is completely free for everyone. No account or credit card is required to get started. File is free touse with no gotchas and no hidden fees. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. Your wallet will be
